LOCAL NEWS.

Mrs. Andrew Treit, well known at Stony Plain, is a medical patient in the Misericordia Hospital since the 21st of March.

Mrs. Gales was in attendance last week at the meeting in Edmonton of the Advisory Board of the Provincial Women's Institute.

Mr. Wood, Strathecona, paid a short visit here with his son R. E. Wood.

Mr. and Mrs. Mord McKinlay were business visitors in Edmonton on Saturday.

Mr. E. L. Duthie assumed managerial duties at the local bank this week. Mr. Duthie was formerly manager at Ponce Compe.

Health Insp. Butterworth gave Stony the once-over on Friday.

Mr. Geo. E. Clarke was in Stony yesterday.

Young Mr. Phil Fuhr, who has been in the employ of the Bank of Montreal for five years, has resigned his position at the Westlock branch, and will return to his father's farm, east of town.

Mrs. H. A. Williams of Edmonton are visiting this week with Mrs. Williams' parents, Mr. and Mrs. H. Loeblich, at Spruce Grove.

Mrs. Goetz, the wife of Hy Goetz, a well-known farmer of this district, is making a good recovery in the Misericordia hospital, after a serious operation performed last week.

School Insp. J. W. Fyfe paid Stony a visit on Tuesday.

A supply of forms for income taxpayers arrived at the local postoffice this week.

Mr. Chas. Schultz brought up a team of pure-bred Percheron mares from Calgary this week.

A Prince Rupert train tried for a new record last week—coming thru 16 hours late.

Henry Baron the other day bought a 2900-lb. team of horses in Edmonton for \$225, and led the team on foot all the way to Stony.

The following is said to be the subject for debate at the next meeting of the Literary society on April 9: "Which gives the greater pleasure—the song of a nightingale or the lay of the hen?"

Meredith Bros. shipped a car of cattle yesterday to Edmonton.

A carload of the last sad souvenirs on the former Government Farm at Stony were shipped on Friday to the institution at Oliver.

Under the auspices of the C. R. C. S., classes for home nursing will shortly be held in Stony. A preliminary meeting will be held at the Town Hall at 3 p.m. on Wed., April the 8th, when Miss West, from the Red Cross Headquarters, Calgary, will give an address.

FOR SALE — 120-Egg Imperial Incubator and Brooder, \$15, good as new. 1 McLaughlin Light Six Car for sale, \$300 cash. H. O. Terwilliger, 3 miles west & 1-2 mile north of Stony Plain.

Why Boys Leave The Farm

The question suggested by the above heading has been the subject of countless discussions, debates, newspaper and magazine articles. It has never been satisfactorily answered, nor has the problem itself been solved. As a matter of fact no completely satisfactory answer can be given because the reasons why boys leave their farm homes are as varied as the characters of the boys and the farms from which they come.

Although no one general reason can be advanced for boys leaving the farms, it is nevertheless well that continued attention should be devoted to the subject. To some extent the subject should receive community attention, but more particularly it is one to be studied and the problem solved by the parents of the boys. As has already been stated, what influences one boy to leave the farm does not make any appeal whatever to another boy. In the case of the second boy the urge to go arises from some entirely different cause.

If a boy on the home farm is becoming restless, losing interest in the farm, becoming disinterested and unhappy, it is inevitable that sooner or later he will leave unless the reason for his dissatisfaction is learned, and, if possible, removed. Because father and mother have been satisfied to remain on the farm is no reason in itself why son or daughter should be content to do so. The important thing is to develop a keen desire for farming and farm life.

Among the reasons usually advanced why the boys—and girls, too—leave the farm are the attractions offered by the bright lights, the amusements, the companionships of the cities. Undoubtedly they provide their drawing power, although, all too frequently, they prove will-o'-the-wisps. Again, the shorter hours of work in city offices, shops and factories make strong appeal to the farm lad who has a continual round of chores and tasks from dawn to dark. City work appeals to him as easier, more pleasant, and as offering greater opportunities for advancement and culture. Too often the boy feels that he is merely a hired man on the farm instead of a partner in a family enterprise. The present is not satisfactory to him while the future holds out no great promise of anything better.

Then there is, of course, those boys to whom farm life does not appeal, but who have a real yearning to become doctors, lawyers, teachers, merchants, mechanics, business executives. On the farm they are, and always would be, square pegs in round holes, just as there are city residents who yearn for the land. It seems to be easier, however, for the farm boy to drift into a city job than it is for the city man to establish himself in rural life.

But is there not another aspect of this question to which too little attention has been given in the past? Is it not a fact that farmers do not "magnify their calling" as they ought to do? Recently a farm boy wrote an article on this much discussed question as to why boys leave the farm, and his boy's views are worthy of serious consideration by farmer and farmer's wives. He asked what encouragement there was for boys to remain on the farm when their fathers and mothers were continually crying down the farm and its work. Instead of helping to keep their boys on the farm such tactics simply drive them away.

Further, the boy's observation led him to the conclusion that many farmers only provided full educational facilities for those of his children who were going into some other occupation than farming, and that the boy who was willing to stay with the farm was only given as much schooling as the law insisted upon. In other words, the boy who elected to stay with the farm was denied those advantages and privileges of self improvement granted to those who had determined to leave the farm and go into other lines of work. It is not denied that many farmers have had hard struggles and many discouragements, but constant dwelling upon them does not help to better conditions, nor is it calculated to inspire the children to remain with the farm. And if many of these farmers could fully realize the struggles and discouragements of thousands of unemployed in the cities, and of the fear ever present with other thousands that they may be "laid off" next week or next month, they would get a truer perspective of their own situation.

It cannot be expected that a high spirited ambitious boy looking forward on life is going to stay with the farm if his parents are constantly running it down. Such a boy insensibly makes up his mind that his home is going to be different, that when he marries he is not going to condemn his wife to a life of which he hears his father and mother make constant complaint.

After all, it is not so much the isolation of rural life—which is largely passing with the advent of the rural telephone, radio and the motor car—nor the long hours of work, nor even the disappointments which come so often, bringing, that causes many boys and girls to leave the farm. Rather it is the atmosphere of the farm home and the fact that its disadvantages and discouragements are dwelt upon so much and silence maintained regarding its undoubted advantages in so many ways over city life.

If in those farm homes where a feeling of gloom and a complaining spirit has developed, these tendencies were relegated to the background, and the boy who elects to stay with the farm was given equal advantages with the others, it is probable that more boys would choose to stay with the farm.

Children Cry for

Fletcher's CASTORIA

MOTHER—Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

French Girl Discovers New Fuel

Solution of Sugar Is Basis For Gasoline Substitutes

Remarkable claims are made for a new auto fuel, named Iroline, after its discoverer, 15-year-old Irene Laurent, daughter of a well-known French chemist. The product, which is understood to have for its basis a solution of sugar, is said to cost less and go farther than any other of the so-called substitutes for gasoline yet tried.

A party of prominent automobile engineers who tested the new fuel in a long run on an ordinary machine, are quoted as expressing themselves astounded by the results.

The Iroline used in the test was made the night before by the chemist Laurent in his own kitchen.

Drives Out Rheumatism Subdues Lumbago

Brings Ease and Comfort to the Sufferer at Once

NERVINE A King Over Pain

Those who seek permanent relief from the grinding pain of Rheumatism and Lumbago should read the letter of F. E. Normand, from Georgetown, who writes:

"I was fairly crippled with aching joints and Rheumatism. Nervine must have been what I needed, because it cleared up my trouble quickly."

"If you need a reliable, strong, penetrator pain remedy, one you can depend on, get a 35c bottle of Nervine to-day; it will make you well quickly."

Good Price For Land

A price of \$85 an acre for a farm near Clearwater, Alberta, was reported in a sale made recently. This is the highest price paid in that district for some years, according to the Lethbridge Herald.

HEART WAS WEAK NERVES ALL GONE

Mrs. J. H. Hallenbeck, 117½ Welton Avenue, St. Catharines, Ont., writes:—"I was in a gas explosion; it left me with a weak heart, and my nerves were all gone. I suffered everything; could not sleep, or endure any excitement, and when left alone I felt as if I could scream. I took dizzy spells, often falling and bruising myself. My mother read about your Milburn's Heart and Nerve Pills, and bought me a box, but having taken so many different kinds of medicine I just feared that I did not have any confidence in any of them. I took one box of H. & N. Pills, and felt so much better I continued with them until I had used five boxes, and after I had taken them I did not need any more. I cannot praise, or recommend, Milburn's Heart and Nerve Pills too highly after all they have done for me."

Put up only by The T. Milburn Co. Limited, Toronto, Ont.

Finances In Good Shape

Britain Receives Substantial Income From Foreign Investments

The British board of trade issued an estimate the other day of that part of the national income which is earned abroad. The earnings for British investments in foreign countries are put down at slightly more than one billion dollars. If the average interest rate was 5 per cent, the investments must have amounted to nearly eighteen billion dollars. The busted British seems to have saved a bit from the wreck. You have to hand it to John Bull. He has a way of looking out for himself—Kansas City Star.

A Corrector of Pulmonary Troubles. Many testimonials could be presented showing the great efficacy of Dr. Thomas' Electric Oil in correcting disorders of the respiratory processes, but the best testimonial is experience, and the Oil is recommended to all who suffer from these disorders with the certainty that they will find relief. It will allay inflammation in the bronchial tubes.

Latvia has only 201 miles of railroad.

Many have been relieved of corns by Holloway's Corn Remover. It has a power of its own that will be found effective.

Chicago has more snow than Ketchikan, Alaska.

Advise Nature Lovers Camp Craft Secrets

New Booklets of Canadian National Railways Gives Useful Hints to Fishermen, Campers and Sportsmen

The out-of-doors appeals to all Canadians and few countries in the world have been so favored in the matter of holiday places. In every province are magnificent fishing streams and lakes, hunting or camping grounds. In many cases, however, the novice about to start out for a holiday in that out-of-doors wonders just what provision he should make in the way of clothing and outfit, and also what food supplies, bedding, etc., he is likely to need. To meet the requirements of such Canadian, planning for outings in the lake, river or woods districts of the Dominion, a splendid book, etc., "Camp Craft and Woodlore" has been issued by the Canadian National Railways and is being placed in the hands of ticket agents for distribution.

"Camp Craft and Woodlore" is dedicated to those who would answer the call of the open, according to the foreword of this booklet. In it are found many helpful hints gleaned from the experience and learning of years and related, in the hope that their telling may widen the appeal of Canada's great natural playgrounds and add to the numbers who have discovered their charm and delight.

The booklet gives the prospective camper information on what to wear; how to carry equipment; what to eat; how to locate camp sites and how to sleep well. Health instructions and first aid in accidents are given prominence, as also are weather signs, compass variations, and instructions on what to do when "lost in the woods." Altogether, the prospective camper will find this booklet one of the most valuable that has yet been placed at his disposal.

Minard's Liniment for Colds

Shingling, now a popular mode of bobbing, was regarded as an act of penance among the early Christian women of Rome.

Consider your own faults and you will have less to say about the faults of others.

SPRING WEATHER HARD ON BABY

The Canadian Spring weather—one day mild and bright; the next raw and blustery, is extremely hard on the baby. Conditions are such that the mother cannot take the little one out for the fresh air so much to be desired. He is confined to the house which is often over-heated and badly ventilated. He catches cold; his little stomach and bowels become disordered and the mother soon has a sick baby to look after. To prevent this an occasional dose of Baby's Own Tablets should be given. They regulate the stomach and bowels, thus preventing colic or other of the many minor ills of childhood. The Tablets are sold by medicine dealers or by mail at a 25c box from The Dr. Williams' Medicine Co., Brockville, Ont.

There is a bright side. The husband or wife who feels abused gets even by loving the children more.

After eating or smoking Wrigley's freshens the mouth and sweetens the breath. Nerves are soothed, throat is refreshed and digestion aided. So easy to carry the little packet!

WRIGLEY'S
after every meal

For Colds

Aspirin

Proved safe by millions and prescribed by physicians for

Colds Headache
Pain Neuralgia
Toothache Lumbago
Neuritis Rheumatism

Safe Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacturing of Monocristalline Aspirin of Bayer (Austria) Salicylic Acid (A. S. A.). While it is well known that Aspirin contains Bayer's manufacture, to assist the public against imitations, the "Genuine" of Bayer Company will be stamped with their genuine trade mark, the "Bayer Cross".

Larger Yields Per Acre Will Be The Important Work For Farm Boys Of The Future

(By Charles W. Burkett)

Farm boys sometimes think that if they only were differently situated they might accomplish something that would be outstanding in benefiting the human race. They somehow feel that to do this they must live in a city or be possessed of much wealth, either in lands or money. But in reality this is not the case, nor has it ever been the case. For the most part the large fortunes of today came from small beginnings. The big enterprises so numerous in all parts of our land were born small and unimportant, but industry, faith and unwavering devotion to an idea made them big.

In the past the world was busy developing unused natural resources. We still continue to build railroads, but the larger work of railroad building has been done. The most important mines have been located. Gas and oil have been accorded their places in human effort. Electricity, still in its infancy, will one of these days heat and light all our farmhouses and do much of the work on the farm, and it will come from natural water-power. So, too, many other mechanical agencies will be improved.

But the farm—what will the farm boys do? Many of them will go to cities and lead in the development of large enterprises. Others will stay on the farm; and in my opinion will do as great and important work as those who heed the call to the city. The truth of the matter is the biggest work of the next 100 years will be the gain of agriculture and the increase of acre yields of crops and larger unit production of farm animals. To accomplish these things will require the biggest brains of the nation. But it will develop out of farm-raised people, not those concerned with city understanding.

And the farm boy does not need to wait. His most important crop is the soil with which he will work. Soon our population will outstrip present production levels. The acreage of crops or acre yields from better bred stock. That is the idea of the farm boy to hatch. More wheat, but double the production on the acres now devoted to the crop. So with every crop of importance that land handling will be part of the movement—and there is need for this, but the important factor will be seed bred to its work.

Farm boys will do this breeding up. They will take what they already have at hand, or use a better variety if such exists, and breed it to larger production; like the cabbage improved into the delicious fruits of present-day cabbages; like the cow from an average of 2,000 pounds of milk to 12,000, 15,000, 20,000 pounds of milk; like the thin, angular, long-legged hog bred up and improved into the wonder stein and meat animal he is; like the few eggs from a few decades ago and now at least an egg a day. What has been done with animals can be, and will be done with the crops of the fields.

As the crop grows this summer, locate what you believe to be the best and choicest plants. Many of them will show great superiority as to growing qualities; from the best of these choose a few for seed, your pet seed if you want to call it such.

Great Expansion of Trade

Predicts High Prices for Canadian Wheat For Some Time to Come

"I am confident the world is on the verge of the greatest expansion of trade ever seen, and in this movement toward prosperity Canada has obtained a running start," states Sir George Paish, distinguished British economist.

"I anticipate high prices for Canadian wheat over a considerable period of years. Canada is ready now to increase her production greatly. The railways are there. All that is needed is farmers to till the soil, and there should be easy to get. Thus, in the next decade," Sir George asserted, "I expect to see the Canadian farmer prosperous and the vast Canadian railway problem solved through increased traffic."

Only the fast thinkers become leaders. No other has been known.

W. A. U. 1929

Fish To Be Tagged

Plan to Determine How Salmon at Pacific Coast Migrate

Efforts to secure an international salmon treaty between Canada and the United States will be made immediately by government authorities on both sides of the line, according to J. P. Babcock, chairman of the new international fisheries commission, and assistant commissioner of fisheries, British Columbia.

Arrangements have been made providing for California, Oregon, Washington, Alaska and British Columbia to tag salmon taken in their respective waters between April and July this year. Mr. Babcock also said these measures are expected to show whether salmon migrate from one part of the coast to another, or whether the various runs are native to particular districts.

Similar experiments will be carried out from Hecate Strait in respect of halibut. The two governments will send out a specially equipped halibut schooner to catch, tag and liberate halibut. This will be the first attempt made to mark this fish.

Total Exports of Dairy Products

Considerable Increase is Shown in Both Quantity and Value

Including butter, cheese, milk powder and condensed, canned and preserved milk, Canada exported in the twelve months ending January, 1926, according to official statistics compiled at Ottawa and issued by the department of agriculture, 193,912,982 lbs., valued at \$26,293,295 compared with 174,124,779 lbs., valued at \$35,108,936 in the preceding twelve months. The exports of butter in the year ending January, 1926, were 23,639,327 lbs., worth \$8,949,351, and of cheese 122,764,700 lbs., worth \$28,329,056. In the previous year the exports were: Butter, 23,859,565 lbs., valued at \$4,839,801; cheese, 115,337,500 lbs., valued at \$23,174,594. It will be noticed that in each instance the quantities were greater in 1924-5 than in 1923-4.

Want Egg Tariff

B.C. Poultry Men Would Curb Importation of Eggs From U.S.

At a convention of poultry men, representing 15,000 members of the industry in British Columbia, it was decided to urge the extension all over the Dominion of the Egg Marking Act, and to provide that all eggs imported into the province be stamped with the country of origin. With a further view to curbing the large importation of American eggs, it was also urged that the tariff on American eggs, imported into British Columbia, be raised to eight cents per dozen, from the present rate of three cents per dozen, or placed on an equal footing with the duty charged on British Columbia eggs imported into the United States.

Australia's "Kangaroo" Butter

A National Brand to be Adopted for High-Grade Export

Being resolved to send to the United Kingdom a butter of uniform quality and excellence, Australia has adopted a national brand to be known as "Kangaroo" butter. The brand is to be limited by expert official graders, and to earn this distinctive mark the butter must be made from pasteurized cream, pass severe grading tests and earn an award of 92 points, which means a very high standard in flavor and texture. It is expected that 65 per cent of butter exported from Australia to Britain this year will be of this brand. At the recent dairy show in England this "Kangaroo" butter took first, second and third prizes in the colonial section.

Alberta Buffalo Go To Antwerp

A beautiful pair of buffaloes have embarked on their long trip to Antwerp from the Wainwright Park, in company with a magnificent male from Edinburgh to replace one that died as sea recently enroute to that city. These magnificent specimens from the Elk Island Park are destined for the National Zoological Gardens of the Transvaal, South Africa.

Hebridean Colonization At Vermilion, Alberta

Scottish Immigration Aid Society's New Scheme

The settlement of Hebrideans in Western Canada has been one of the most satisfactory phases of Dominion Colonization in recent years, regarded from all the various viewpoints. The delegation from the Hebrides, headed by the Very Rev. Canon Macdonald, which toured the Dominion last fall and closely investigated Hebridean settlement with a view to stimulating and expanding such colonization. It found justifiable, expressed itself as completely satisfied with what had been accomplished and the happy and prosperous state of Hebridean settlers in Canada.

The Scottish Immigration Aid Society was formed by a group of philanthropic individuals who were keenly appreciative of the benefits of Hebridean settlement in Canada, and were desirous of extending it to the mutual advantage of Canada and Scotland. It introduced a novel note into Canadian colonization by erecting a number of cottages on land in Alberta for the reception, assimilation and training of newcomers from the Hebrides, where the immigrant, after traveling the thousands of miles by land and sea, instead of facing the hardships of pioneering, found a home awaiting him on arrival.

The society's plan for 1925 are equally novel and ambitious. Recently, through taking advantage of the provisions of the Empire Settlement Act, the society was able to complete the purchase of a substantial block of land just north of Vermilion in Alberta, consisting of nearly 50,000 acres. This block is diagonally intersected by the "Cut Knife-Whitford" branch of the Canadian Pacific Railway, which provides convenient and adequate transportation facilities.

Through funds secured by participating in the terms of the Empire Settlement Act, the society is at present engaged in building houses on each quarter section of the block. As soon as these are ready one hundred eighty families will be brought out from the Northern Scottish Islands to occupy them. Everything will be readied for immediate residence, and the settlers be placed many years ahead as compared with ordinary pioneer settlement. Each family will be assisted in getting farming operations under way immediately with a loan of \$1,500. These arrangements, in combination with the proven quality of application and perseverance possessed by Hebrideans, form the best augury for success.

The Needful Knowledge

"He—'Know anything about India?' " "Him—'Doubt is the word you want. I solved that one last night.'"

Movie Star in New Role

Officials who spotted Patricia Dale, movie star, as master of Yonge Street Station, North Toronto, for one hour, were considerably surprised at her security, especially when she blithely donned goggles, overalls and proceeded to show the engine that she could drive an engine.

Advantages To Prairie Farmer Which Will Result From The Planting Of Shelter Belts

Saskatchewan Poultry Pool

Exclusive Marketing Agency Formed On Five-Year Contract Basis

A five-year contract for the Saskatchewan poultry and egg pool was approved at a meeting of the provisional board of directors. The contract provides that the Saskatchewan Co-operative Poultry Producers Limited shall be the exclusive marketing agency for the producer signing the contract.

The producer undertakes to consign and deliver to the pool or its order in good marketable condition all poultry produced or acquired by him during 1925 and all poultry and eggs produced or acquired during the years 1926 to 1929 inclusive, except poultry or eggs required by the producer for domestic purposes, poultry used for breeding or exhibition purposes, eggs sold or sold for hatching or incubation purposes, any other poultry or eggs which the producer may dispose of in any other manner after first having obtained the written consent of the pool.

The pool is given authority in the contract to make regulations, establishing grade standards and to grade and classify all poultry and eggs delivered to it, subject to statutory regulations.

Provision is made for the pool at its discretion to make advances in one or more instalments on account of the produce delivered to it.

Germany Is Large

Importer of Seeds

All of Alaska Clover Is Obtained From Canada

Germany is a large importer of seeds both for her own use and for re-exportation as well, large quantities being sent to other parts of Central Europe. Hamburg is the seat of a large part of this trade.

"With regard to the import trade," writes the Canadian Government trade commissioner at Hamburg, "Canadian seed exporters have secured a firm foothold as suppliers of Alaska clover seed to German importers. According to the Canadian trade returns, there were exported to Germany in the financial year ending March 31, 1924, a total of 20,157 bushels of Alaska seed of a value of \$123,177. This is the only seed which Canadian exporters have been selling to Hamburg firms in any quantity.

Fatalities from alcoholism in Prussia doubled more than 45 per cent, in the first six weeks of 1924.

Have you ever stopped to sum up all the good things trees will do for the prairie farmer?

In the first place they will make his place noticeable. Not a person passing or looking in its direction from even miles away but will see it. Trees are the most conspicuous landmarks anywhere on the prairie; and planted firms always catch the eye.

And, as long as so many farms are unsheltered, not only will his farm be noticeable, but it will be notable among so many treeless neighbors. It will be at the same time attractive, for nothing is so attractive as beauty or so pleasing as contrast; and there are few things more attractive or more pleasing than the contrast afforded by a green clump of trees in the midst of the brown prairie.

All these things add value to the place, for it is remembered it is the purchaser who places the final value on anything; and can anyone doubt which place he would be willing to pay a premium for, the treeless place or the treeless, everything else being equal. The farmer's plantation is a wonderful creator of values.

To the farmer himself and his family, the benefits are quite material, for they have shelter from the winds and shade from the sun in the summer and the fierce blasts of winter pass them over.

Then there are the material advantages resulting from a good garden which invariably follows the shelter belt. Abundance of the finest kind of vegetables, small fruits and even better than that. Rarely, for instance, do you find a man trying out apples, plums or cherries till he has a shelter belt. Rarely still you find a three or four-year-old plantation that is not sheltering the first plantings of an orchard. The one invariably follows the other, and no successful fruit growing has yet been recorded from the prairie unless from behind the shelter of a tree belt.

Saskatchewan Flax Straw

Favorable Report on Quality is Received from London

A very favorable report has been received by T. M. Molloy, commissioner of labor and industries, from M. L. Pritchard, of London, who has been carrying out experiments of flax straw grown in Saskatchewan. In his letter, Mr. Pritchard states that the flax straw is of excellent quality.

"The quality of straw for fibre in the seed straw is excellent and in my opinion could not be better. The smallest samples sent me of 125 ounces gave two ounces of fibre the length of the straw and a small quantity of shorts and few spinners. I would like very much to receive some of the threshed flax straw for the purpose of working this into a spinning tow. Your province must be losing a great deal of money through not utilizing this valuable product and I do not think Saskatchewan does not grow flax for fibre as well as for linseed."

Saskatoon District To Have Hog Grader

Need of Government Grading Service Has Been Recognized

In recognition of the growth of the hog raising industry in Saskatoon as a shipping centre, arrangements have been effected with the Dominion livestock branch to have a member of the hog grading staff two days a week to grade hogs.

Representations of the need of the government grading service there were made during the recent short course on bacon hogs at the university to members of the Dominion livestock branch by the Hon. A. F. McNair, William Nolan and Mr. Young, who comprise the Nolan Livestock Company.

Plan Inter-Empire Air Flights

In the course of a discussion in the House of Commons on the air estimates, the air minister, Sir Samuel Hoare, announced that he proposed to organize long distance airship flights within the empire. The service could commence first on two nights in Africa, from Cairo to Capricorn, and from Cairo to Lake Toba. Later other similar flights would be made and the day would be down in the air over a great part of the British Empire.

Copyrighted, 1922, by Rafael Sabatini
"CAPTAIN BLOOD," a Vitaphone picture with J. Warren Kerrigan in the title role, is an adaptation of this thrilling novel.

SYNOPSIS

Peter Blood, a rebel-convict under King James, becomes a buccannier with headquarters at Tortuga. He is in love with Arabella Bishop and has rescued Maseion, daughter of the governor of Tortuga from Levasseur, a French ruffian. This induces him ships and men for his enterprises. King James sends to the West Indies Lord Julian Wade as an emissary to make peace with piracy. Arabella is on the same ship, the Royal Mary.

CHAPTER XVI.—(Continued)

She had turned to face him. She was pale to the lips, and her hazel eyes were blazing, as she cut into his apologies for Blood.

"They must, indeed, if his other associates allowed him to live after that."

"Oh, the thing was done in fair fight, I am told."

"Who told you?"

"A man who sailed with them, a Frenchman named Calusac, whom I found in a water-side tavern in St. Nicholas. He was Levasseur's lieutenant, and he was present on the island where the thing happened, and when Levasseur was killed."

"And the girl? Did he say the girl was present, too?"

"Yes. She was a witness of the encounter. Blood carried her off when he had disposed of his brother-buccannier."

"And the dead man's followers allowed it?" His caught the note of incredulity in her voice, but missed the note of relief with which it was blent. "Oh, I don't believe that. I won't believe it!"

"I honor you for that, Miss Bishop. It strained my own belief that men should be so cautious, until this Calusac afforded me the explanation. Blood purchased their consent, and his right to carry the girl off. He paid them in pearls that were worth more than twenty thousand pieces of eight." His lordship laughed again with a touch of contempt. "A hand some price."

"Your Calusac seems to have been accurate enough. Alas!"

"You are sorry, then?"

"As we are sorry to hear of the death of one we have esteemed. Once I held him in regard for an unfortunate but worthy gentleman. Now

such a man is best forgotten."

W. N. U. 1570

And upon that she passed at once to speak of other things.

The friendship which it was her great gift to command in all she met grew steadily between those two in the little time remaining, until the event befell that marked what was promising to be the pleasantest stage of his lordship's voyage.

The marplot was the mad-dog Spanish admiral, whom they encountered on the second day out, when half-way across the Gulf of Gonsave. A shot from the *Milagrosa* got among some powder stored in the *Royal Mary's* forecastle and blew up half the ship almost before the fight had started. Before the men of the *Royal Mary* then, their captain killed and a third of their number destroyed with him, the ship, yawing and rocking helplessly in a crippled state, the Spaniards boarded her.

In the captain's cabin, under the poop, to which Miss Bishop had been conducted for safety, Lord Julian was seeking to comfort and encourage her, with assurances that all would yet be well, at the very moment when Don Miguel was stepping aboard. Fortunately, Miss Bishop did not appear to be in desperate need of the poor comfort he was in case to offer. The cabin door flew open and Don Miguel strode in. Lord Julian sprang round to face him and clapped a hand to his sword.

The Spaniard was brisk and to the point.

"Don't be a fool," he said in his own tongue, "or you'll come by a fool's end. Your ship is sinking. Come, all of you, aboard my ship." Don Miguel invited them, and strode out.

As for the survivors, in that ghastly shambles that had been the *Royal Mary*, they were abandoned by the Spaniards to their own resources. Let them take to the boats, and if those did not suffice them, let them swim or drown. If Lord Julian and Miss Bishop were retained, it was because Don Miguel perceived their obvious value. He received them in his cabin.

Lord Julian commanded himself with difficulty to supply them. Then laughingly he demanded to know, in his turn, the name of their aggressor.

"I am Don Miguel de Espinosa," he answered. "Admiral of the navies of the Catholic King."

"Will you tell me, then, why you behave like a damned pirate?" Lord Julian asked. "It will cost you dear!" "All things are possible. Meantime it is your own lives that will cost you dear. Colonel Bishop is a rich man; and you, *milord*, are no doubt also rich. I will consider *de fix* your ransom."

"And you have the impudence to call yourself the Admiral of the navies of the Catholic King!" stormed his lordship.

"It is that I treat you English heretic dogs just as you English heretic dogs have treated Spaniards upon the sea, you robbers and thieves out of hell! I have the honesty to do it in my own name, but you, you perfidious beasts, you send your Captain Bloods, your Hagthorpes, and your Morgans against us and disclaim responsibility for what they do."

"Captain Blood and the rest are not admirals of England!" cried Lord Julian.

"Are they not? How do I know? How does She know? Are you not here all you English heretics?"

"Sir!" Lord Julian's voice was harsh as a rasp, his eyes flashed. Instantly he swung a hand to the place where his sword habitually hung. "Then he charged and snarled: 'Of course,' said he, 'it sorts with all I have heard of Spanish honor and all that I have seen of yours that you should insult a man who is unarmed and your prisoner.'"

The admiral's face flamed scarlet. He half raised his hand to strike. And then, restrained, perhaps, by the very words that had cloaked the retorting

Something New!

SMOKERS always prefer their tobacco in perfect condition; this is assured, when they demand it packed in the famous Vacuum (air-tight) tins.

The following well known brands are now packed in the famous Vacuum (air-tight) tins.

OLD CHUM Virginia Flake CUT SMOKING Tobacco
REPEATER FINE CUT (Pipe or Cigarette Tobacco)
REX Smoking MIXTURE (for Pipe or Cigarette)

- 11 Disapproval.
- 12 Refer (ab.).
- 13 To exist.
- 14 A fowl.
- 15 A depression.

Four and one-half tons of oak timber make a ton of charcoal, while of pine timber six tons are required.

Answer To Last Week's Puzzle

BURNS!

Mix Minard's with sweet oil and apply at once. It removes inflammation, stops the pain and heals quickly.

insult, he turned on his heel abruptly, and went out without answering.

The *Milagrosa*, with her consort, the *Hidalga*, rolling after her, steered a south by westerly course, then veered to the southeast, round Cape Tiburon, and thereafter, standing well out to sea, with the land no more than a cloudy outline to leeward, she headed directly east, and so ran straight into the arms of Captain Blood, who was making for the Windward Passage. That happened early on the following morning. After having systematically hunted his enemy in vain for a year, Don Miguel chanced upon him in this unexpected and entirely fortuitous fashion. It was also the day of Fortune that Don Miguel should thus come upon the Arabella at a time when, separated from the rest of the fleet, she was alone and at a disadvantage. It looked to Don Miguel as if the luck which so long had been on Blood's side had at last veered in his own favor.

(To be continued.)

FULL OF ACHES AND PAINS

Toronto Mother Found Relief by Taking Lydia E. Pinkham's Vegetable Compound

Toronto, Ontario.—"I have found Lydia E. Pinkham's Vegetable Compound a splendid medicine to take before and after confinement. A small book was put in my door one day advertising Lydia E. Pinkham's medicine, and as I did not feel at all well at the time I went and got a bottle of Vegetable Compound right away. I soon began to notice a difference in my general health. I was full of aches and pains at the time and thought I had every complaint going, but I can truthfully say your medicine certainly did me good. I can and speak highly of it, and I know it will do other women good who are sick and ailing if they will only give it a fair trial. Lydia E. Pinkham's Liver Pills are splendid for constipation. You are welcome to use my letter if you think it will help any one." Mrs. HARRY WESTWOOD, 643 Quebec Street, Toronto, Ontario.

The expectant mother is wise if she considers carefully this statement of Mrs. Westwood. It is but one of a great many all telling the same story—beneficial results.

Lydia E. Pinkham's Vegetable Compound is especially adapted for use during this period. The experience of other women who have found this medicine a blessing is proof of its great merit. Why not try it now yourself?

EASTERN CANADA FAVORS THE NEW TAX REGULATIONS

Montreal.—The tax on the exportation of electrical power will certainly, I should think, have the effect of discouraging Americans from tampering with Canada's natural resources, J. S. Norris, vice-president and general manager of the Montreal Light, Heat and Power Company, declared, discussing the provisions of this year's budget. Mr. Norris did not think American consumers would be nearly so anxious to get Canadian hydro-electric power with the added asked whether he considered this was a good thing for Canada, he replied: "Yes, I do."

Government assistance to coaling plants, which are expected to be established at strategic points, is not likely to make any difference in Canadian Pacific Railway freight rates on coal shipments from mines, either in the east or in the west. A statement was made by Z. N. Todd, freight traffic manager of the Canadian Pacific Railway, that the rate for carrying coal was now at a point where it could not be lowered, and that no change was contemplated.

At the offices of the Canadian National Railway, it was stated that no comment could be made until the budget had been studied.

Raise More Sheep

Canadian Manufacturers Emphasize the Importance of the Woolen Industry

Toronto.—To induce the Canadian farmer to raise more sheep, the Canadian manufacturer to use more Canadian wool, and the Canadian consumer to wear more Canadian woolen goods—this is the three-fold objective of the convention of Canadian Woolen and Knit Goods Manufacturers, which opened here.

In his annual address, President Dobbie laid emphasis on the importance of the woolen industry to Canada, and urged the necessity for safeguarding this industry in every way.

Trouble In Balkan States

Seizure of Airplane Pilot With Maps Causes Suspicion

Vienna.—Bulgaria and Yugoslavia are on the verge of a deadly diplomatic war, symptomatic of the suspicious atmosphere of the Balkans.

Dispatches from Belgrade say that a Bulgarian airplane has been seized in Yugoslavia territory, and that photographs of Yugoslav frontier fortifications were found in it. The pilot and passenger, the Belgrade report asserts, were Bulgarian officers.

Bulgaria insists that the plane was privately owned, and that its pilot and passenger have no official status. The men probably will be tried by a Yugoslav court martial.

Pasteurization of Milk

Calgary.—The legislative committee of the city council, after hearing arguments for and against, decided not to recommend a bylaw for the compulsory pasteurization of milk sold in the city, on the grounds that it would work a hardship to small vendors. Eighty-five per cent. of the milk sold in the city by large firms at present is pasteurized.

Egypt Acts Independently

Paris.—Although Great Britain is supposed to control Cairo's foreign policy, independent action by the Egyptian Government has developed.

GIN PILLS FOR THE KIDNEYS

Kidney disease is dangerous unless checked. Gin Pills will remedy all kidney troubles. Get a box to-day before it is too late.

W. N. U. 1579

Manitoba Pool Elevators Seeking Incorporation

Winnipeg.—A bill to incorporate the Manitoba Pool Elevators, with a capital stock of \$1,000,000, was ordered reported by the private bills committee of the Manitoba Legislature. The company, under the bill, is seeking authority to construct or acquire facilities for handling grain for the Manitoba Co-operative Wheat Producers, Limited, and its members. It aims to improve methods and reduce the cost of handling grain and to curtail speculation, manipulation and waste in the process.

Ukrainians Face Starvation

Reports From Komarno District, Manitoba, Have Been Confirmed Winnipeg.—The Canadian Rank, Ukrainian language paper, says, "We have certain evidence that the poverty of the Ukrainian farmers north of Komarno is terrible and that, if there is no prompt action, dozens will perish of hunger."

The paper states that several families are living on the charity of the municipality and that when present supplies are exhausted, "dead awaits them."

Dr. J. A. Hunter, Tenlon, who has worked for the Presbyterian Church among the Ukrainians of the Komarno district for 20 years, said that he believed the report to be correct. All crops and garden produce in the district was destroyed by frost last year, and the people had no means of support.

Says Oriental Labor Retards B.C. Prosperity

Delegates Claim Wages Paid Do Not Circulate Amongst White Population

Victoria, B.C.—One hundred and eighty-one delegates representing 80 different associations and societies, met here recently and discussed the Oriental problem in British Columbia and means for its solution. Speakers declared that Oriental labor had been a great influence in retarding prosperity in the province, as money paid to Orientals was lost to circulation amongst the white population. It was declared that the timber industry payroll last year was \$60,000,000 and that one-half of the amount was paid out to Orientals.

Alberta Coal For Ontario

100,000 Tons To Be Shipped East In May

Toronto.—An agreement was made in the Ontario Legislature by Premier G. H. Ferguson that in May the railways would commence to transport 100,000 tons of coal from Alberta to Ontario. No provision was made in the agreement to say that the railways would carry the coal at cost. The premier stated that the Alberta Government was seeking to fit that the eastern province obtained a good quality of coal.

Germans Threaten Poles

Warsaw.—In pursuance with the German-Polish convention signed at Vienna last August the German Government has invited persons domiciled in Germany who declared their preference for Polish nationality to leave German territory before August 1 next with the alternative of expulsion by force.

Earl Balfour's Visit

Jerusalem.—The visit here of the Earl of Balfour, former British foreign secretary, passed without incident. Crowds gathered in the mosques, and were addressed by Moslem and Christian orators. Mounted police patrolled the streets, but there was a marked absence of tension.

Western Nurses Graduate

Montreal.—Four western nurses are included in the 1922 graduating class of nurses in training at the Royal Victoria Hospital here. The western nurses are: Jean Scott, Winnipeg; Maud Gwynne; Nixon, Battleford, Sask.; Agnes Bigelow, Regina, Sask.; and Lillian Greene, Medicine Hat, Alta.

Treaty Is Approved

The Hague.—The second chamber has approved the trade treaty between Holland and Canada.

Meets Grave Crisis

THE EARL OF YPRES

formerly Field Marshal Sir John French, who underwent a severe operation recently.

Help For Canadian Veterans In U.S.

Relief Will Be Given Through American Red Cross

Ottawa.—No special provision is made for the relief of disabled or distressed veterans of the American Expeditionary Force, now resident in Canada. It was stated in the House of Commons by the minister of soldiers' civil rehabilitation, Hon. Dr. H. S. Boland.

The question came up during the discussion of proposed legislation to dispose of the surplus profits from the campaign of the Canadian Expeditionary Force during the war. These have been held in trust by the government.

Dr. Boland stated that a sum, not yet decided, would be allotted to the American Red Cross for the relief of members of the Canadian Expeditionary Force resident in the United States.

Report On Resources Ready

Investigation Into Matter of Transfer To Alberta Is Finished

Edmonton.—Premier Greenfield is in receipt of advice from Mr. Hon. Mackenzie King, that the report of O. M. Biggar on the transfer of Alberta's natural resources, has just been submitted, and is ready for consideration.

Mr. Biggar has been making an investigation into the matter since the last conference between the two premiers in Ottawa, the points particularly in question being some technical features of the accounting already made. It was understood that the federal authorities would not be ready to go on with the actual consummation of the transfer, as agreed upon between the governments, until this inquiry had been completed and reported.

Seafish Catch Much Smaller

Both Atlantic and Pacific Coasts Report Considerable Decrease

Ottawa.—The total catch of seafish on both coasts of Canada during February, was 40,785,700 pounds, valued at \$634,549, as compared with 45,282,700 pounds, valued at \$1,260,744 during February, 1921. On the Atlantic coast, the total catch of cod, haddock, hake and pollock was 3,762,400 pounds, compared with 4,218,400 pounds in the preceding February.

The total catch since the commencement of the lobster fishing was 540,000 pounds, compared with 499,900 pounds in the preceding season.

On the Pacific coast, the catch totalled 380,300 pounds, as compared with 1,752,700 pounds in February, 1921.

Will Consider Egg Question

Ottawa.—What Canada proposes to do to meet alleged competition, created by Chinese and United States eggs in the Canadian market, is the basis of a series of questions to be asked in the House of Commons shortly by Mr. McQuarrie, Conservative, New Westminster, B.C.

Old Age Pensions

Ottawa.—The further consideration of old age pensions schemes is advocated by Hon. James Murdoch, minister of labor, in a resolution which he will propose in the House of Commons shortly.

British Nation's Plan For Permanent Peace

London.—Austen Chamberlain, secretary for foreign affairs, informed the British Parliament and the rest of the world that Great Britain will have nothing further to do with the wreckage of the protocol, but will seek to build permanent peace for Europe on another foundation—a mutual pact between Germany and her late allied enemies. This pact would guarantee the present frontiers of Western Europe against change, and in it Germany would renounce all idea of ever going to war to bring about alterations in her eastern borders as they were fixed after the last war.

Offer Children As Sacrifice to Goddess

Father and Son in Calcutta Sentenced to Death for Crime

London.—Dispatches from Calcutta report an amazing case of the sacrifice of children to the goddess Kall, at Mandla, near Jabalpur, in the central provinces.

The young son of a former government official, named Mulchand, fell sick, and the family, believing the boy possessed of a devil, decided human sacrifices necessary to his recovery, and offered up his sister as this sacrifice. When no improvement in the boy's condition was forthcoming, they deprived him of food, and bound him against a tree in a holy place, where he died from exposure.

Mulchand and two sons have been sentenced to death for the crime, and a daughter-in-law to imprisonment for life.

Plan For Franco-Turk Alliance

French Expert Now in Turkey On Pact Business

Constantinople.—Henri Franklin-Bouillon, the French expert on Turkish affairs, is now in Turkey, trying to establish a basis for an alliance between Turkey and France. As the Mosul question is coming up in the spring for settlement, and as Turkey may send arms and credit as well as diplomatic support at Geneva, Angora is dividing violently with France. Paris has decided the time is ripe to try to settle outstanding questions with Turkey and to make a close accord.

Strike Among Arab Students

Recent Opening of Hebrew University in Jerusalem

Jerusalem.—The students in the men's training college here struck in connection with the impending visit of the Earl of Balfour, who is to open the Hebrew University. A general strike movement in Palestine has been decided upon in protest against the appearance of Lord Balfour, author of the Balfour declaration, setting forth the British policy to encourage development of the Jewish homeland in Palestine.

Australia Plans Own Defence

Unwilling to Allow British People to Bear Burden

Adelaide, South Australia.—Speaking here, Premier Stanley Bruce declared the defence idea of the Commonwealth was a squadron of 10,000 men, with submarines. He asserted that Great Britain had assisted Australia to keep away a possible hostile navy, but that Australia could not allow the heavily burdened people of Britain to bear all the burdens of Australian defence.

U.S. Battle Fleet Practice

San Pedro, Cal.—The most powerful of the floating sea fortresses of the United States 11 dreadnoughts recently belched forth a deluge of flame and steel unlike anything ever before unleashed on the Pacific Ocean. For six minutes the great battle fleet sent the air with appalling vibrations in its annual force practice simulating a terrific battle.

Orders Two Submarines

Melbourne.—It was announced here that the Commonwealth Government has ordered two submarines to be constructed by Vickers, Limited, England, at a total cost of \$716,000.

IS NO COMBINE AMONG WESTERN COAL DEALERS

Ottawa.—The Western Canada Fuel Association, "has not operated to the detriment of or against the best interests of the public, and I feel the future can, and will, be amply safeguarded by this act," states Commissioner David Campbell, in his report of the investigation into an alleged combine among coal dealers in Western Canada, under the Combines Investigation Act.

"The report was tabled in the House of Commons by Hon. James Murdoch, minister of labor.

Respecting the Retail Coal Dealers' Association of Winnipeg, Commissioner Campbell states:

"I am of the opinion that the discussion and fixing of prices is one of the main purposes of any association, but until that is carried to the point that prices are unreasonable or unfair, no fault can be found in that direction. I have already expressed my view that the prices charged by retail dealers, as fixed by the association, cannot be said to be unreasonable or unfair, having regard to all circumstances. And, realizing the efficacy of the Combines Investigation Act, and its protection being so easily accessible to rich and poor alike, one can rest quite content as to what may happen in the future."

Eight Killed In Explosion

Oil Lighter Blows Up In Harbor At Hamburg

Hamburg, Germany.—Eight persons were killed, and three others seriously injured, when a heavy explosion occurred on the oil lighter Saturn, in the harbor here.

The force of the explosion tore apart the lighter, a vessel 210 feet long, hauled her anchor, weighing more than 400 pounds, over several nearby buildings, and blew the body of one of the workers aboard the ship to the roof of an adjacent house. The explosion is believed to have been due to gases formed by the residue of oil on the lighter, which exploded when the worker started an oxygen blast apparatus.

For Drug Victims

Winnipeg.—A bill to provide for compulsory treatment of drug addicts in the province was referred to the law amendments committee by the legislature. It was introduced by Hon. D. L. McLeod, municipal commissioner. Mr. Leach, who told members he considered the bill a step toward the solution of the drug problem.

Tuberculosis In Japan

Tokio.—An official report states that tuberculosis is increasing yearly in Japan. There are now 4,300,000 sufferers from the disease, with about 122,000 deaths a year.

Tells Why He Can Now Eat Hearty

"A letter which I read in the paper about Carter's Little Liver Pills said my own case so closely that I could not help trying them and am very happy to say that I wrote Frank J. Trumbull of Jersey City, N. J., whose letter goes on to say, 'I had heard about Carter's Little Liver Pills for years but never knew they helped someone poor appetite and sour stomach, until I read about another man in the same plight who took Carter's with good results. I tried them and can honestly say they freed me of my bad case of indigestion, and I can now eat without getting bilious, and they improved my appetite fully 100%.' You can rest assured that from now on I will boost Carter's Little Liver Pills whenever I can."

Recommended and for sale by all drug stores.

WORLD HAPPENINGS BRIEFLY TOLD

The proposed British expedition to the south pole may use mechanical tractors, instead of dog sledges, if experiments now being conducted are successful.

J. E. McLaughlin, vice-president in charge of operations of the British Empire Steel Corporation, blames the whole industrial trouble in Cape Breton on the Bolshevik element.

The Canadian Fruit Distributors Limited, Vernon, B.C., with a capital of \$100,000, is granted incorporation papers, according to the Canada Gazette.

England is keeping a close secret just how the dreadnought Monarch was sunk by the Atlantic fleet recently. This secrecy may cause a debate in parliament.

Sir Northrup McMillan, former St. Louis multi-millionaire and famous African hunter, who was knighted for distinguished services in the Great War as a British citizen, is dead at Nice, France.

Jena University, taking the lead among German institutions of learning, has made physical training compulsory for all students. One of the arguments advanced for athletics is that they discourage drinking.

As to Asthma Sufferers. Dr. D. Kellogg's Asthma Remedy comes like a helping hand to a sinking swimmer. It gives new life and hope—something he has come to believe impossible. He benefits is too evident to be questioned—it is indeed best arguing itself for asthma-get this time-tested remedy and find help like thousands of others.

Glass Hard to Break
A chemical product, with the same properties as glass, but which does not crack or splinter easily, has been developed by Fritz Pollak, a German inventor. It has been found very practical for automobile windows and windshields.

Why He Succeeded

From hard work on a farm to the study of medicine in Cincinnati, where he graduated in 1902, was the course which Dr. R. V. Pierce took.

In his younger days he practiced medicine over a large district. It was then the new oil fields near Tinsville, Pa. Finally he determined to give up sports and his prescriptions in ready-to-use form in order to reach a larger number of families.

He thus came to Buffalo, N. Y., and established the World's Dispensary, where he put up Dr. Pierce's Golden Medical Discovery for the blood as well as the Favorite Prescription for women, carefully preparing them from roots, herbs and plants and placed them with druggists everywhere.

During the last sixty years Dr. Pierce's Discovery, for the blood, has been sold in larger quantities by druggists than any other medicine. It is a tonic in its effect on the stomach and digestive apparatus, an alternative in its action on the blood, liver and skin. It increases the appetite, stimulates the digestion, enriches the blood, and makes both men and women feel as they did when they were young and care free.

Ask your druggist for Dr. Pierce's Discovery, in tablet or liquid form, or send the full price, of twelve to Dr. Pierce's Laboratory, in Bridgeport, Ont.

Australia Growing Faster Than Canada

Commonwealth Has Many More Inhabitants of British Descent

Though Canada, including its islands and icebergs, is 7,700,000 square miles larger than the Commonwealth, and is much more than twice as old, counting from the date of settlement, and is a much bigger British possession, it had only about 60 per cent. more people on last census. The figures were: Canada, 8,788,483, and the Commonwealth, 5,436,724. And the Commonwealth had many more inhabitants of British descent than Canada. Sydney Bulletin.

COLOR IT NEW WITH "DIAMOND DYES"

Beautiful home dyeing and tinting is guaranteed with Diamond Dyes. Just dip in cold water to get soft, delicate shades, or boil to dye rich, permanent colors. Each 15-cent package contains directions so simple any woman can dye or tint hair, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings, everything new.

Other "Diamond Dyes"—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton, or mixed goods.

The knocker is usually right about his town. If it wasn't that kind of a town it wouldn't tolerate him.

A RELIABLE TONIC FOR SPRINGTIME

Dr. Williams' Pink Pills Give New Health and Vigor

Not sick—but not feeling quite well. That is the way most people feel in the spring. Easily tired, appetite feeble, sometimes headaches and a feeling of depression. Pimples or eruptions may appear on the skin, or there may be twinges of rheumatism or neuritis. Any of these indicate that the blood is out of order—that the indoor life of winter has left its mark upon you and may easily develop into more serious trouble.

Do not dose yourself with purgatives, as many people do, in the hope that you can put your blood right. Purgatives sallow through the system and weaken instead of giving strength. Any doctor will tell you that this is true. What you need in the spring is a tonic that will enrich the blood and build up the nerves. Dr. Williams' Pink Pills do this speedily, safely and surely. Every one of this medicine helps to enrich the blood, which clears the skin, strengthens the appetite and makes tired, depressed men, women and children bright, active and strong.

Proof of the value of Dr. Williams' Pink Pills when the system is run down is shown by the case of Mrs. Lillian Lewis, South Ohio, N.B., who says:—“About a year ago I was badly run down. My appetite was poor, I did not sleep well and my nerves were all unstrung. I could not get up without stopping to rest and I was a long way from a doctor I decided to take Dr. Williams' Pink Pills, and in the course of a few weeks I felt like a new person. As an all around restorative I can heartily recommend this medicine.”

You can get these pills through any dealer in medicine or by mail, at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Succeeds His Father As Engineer

Many years ago Patrick Ash, of South Orange, N.J., for the last twenty years the engineer of a big D. L. and W. locomotive, told his wife that some day their son, Jimmy, would be an engineer. Recently his prediction came true and Jimmy took over his dad's engine.

World's Highest Hotel

The roof of the Kilm Hotel in the Alps is an altitude of 13 times higher than the Woolworth Building. From this hotel, which is near the top of a mountain peak, 50 glaciers and 50 well-known peaks can be seen.

Worms in children, if they be not taken out, cause convulsions and often death. Mother Graves' Worm Syrup will protect the children from these distressing affections.

After a man has expressed his opinion he often wishes he had patronized a slow freight.

Exclusive Patterns

The Ensemble Costume.

One of the smartest modes of the season is the ensemble costume, which is worn in both tailored and more dressy models. An attractive ensemble is here shown. The coat is of wood-toned charmon, lined with the same printed silk of which the dress is made. Coat No. 1052 is a straight-line model with slightly bell-shaped sleeves and convertible collar, and may be made in either of two lengths. The pattern is cut for ladies and misses, in sizes 34 to 44 inches bust, and requires 3 1/2 yards of 54-inch material and 3 1/2 yards of 36-inch lining for size 38. The dress, No. 1050, is a one-piece frock with long chair in center front, small front yoke and close-fitting sleeves. The collar, cuffs, front plait and pockets are of contrasting colored crepe. Cut in sizes 34 to 44, the 38 size requires 4 1/2 yards of 40 or 42 inch material, and 3/4 yard contrasting material for trimming.

SUNDAY SCHOOL LESSON

APRIL 5
THE BLESSING OF PENTECOST

Golden Text: Repent ye, and be baptized every one of you in the name of Jesus Christ unto the remission of your sins; and ye shall receive the gift of the Holy Spirit. Acts 2:38.

Lesson: Acts 2.

Devotional Reading: Joel 2:28-32.

The Text Explained and Illumined

The Coming of the Holy Spirit and the Effect Upon the Observers, verses 1-13.

Before He left His disciples, Jesus gave them a great commission. He was to convince others that he is the Son of God, that He lived and taught as only they could fully testify, that He willingly suffered death on the cross for the salvation of the world, and that He had arisen from the dead and ascended into heaven. "Jesus Christ and the power of His resurrection" was a truth which the world would not readily accept. Only through power given them from on high could these men accomplish their great task.

On the Day of Pentecost that power came. There was a sound as of wind and there was an appearance as of fire symbols of the Holy Spirit. The disciples found themselves praising God in words that sounded strange to themselves and incomprehensible to others, but the important, never-to-be-forgotten fact was that they then realized that the Spirit of God which had been in Christ had come to their hearts also, that he was to abide with them as their Strengthener and Helper, that He it was who through them would make the Christ known to the ends of the world.

Not a Village in All Canada

But Can Tell of Genuine Relief by Dodd's Kidney Pills

Quebec Man Tells How Quickly They Built Him Up and Brought Him Back to Perfect Health.

St. Fulgence, Que. (Special).—There is not a village or post office in Canada that cannot provide a case of genuine relief by Dodd's Kidney Pills. In this little village again and again, hear grateful testimony to the wonderful healing power of this simple remedy. Mr. Philippe Gagnon is one of these.

"My pills are very good," Mr. Gagnon states. "I have suffered a long time with kidney trouble. Six bottles of Dodd's Kidney Pills have done me much good that I intend continuing the treatment until I am completely relieved of my trouble. I tell all my friends who suffer with kidney trouble to take them."

Dodd's Kidney Pills simply strengthen and heal the kidneys. The work of the kidneys is to strain all the waste matter out of the blood. If the kidneys are out of order they fail to do their work, and the waste matter remains in the blood, causing serious diseases.

Splendid Pattern Service

Authentic News and Illustrations of Modern Styles For Women and Children

We take great pleasure in announcing that arrangements have been made whereby authentic news and illustrations of the prevailing styles for women and children will be shown in this paper regularly.

Not only the newest things in outer apparel, but also designs and suggestions for more intimate garments, such as lingerie, etc.

Perhaps the most attractive part of this authentic news is that, in connection with this fashion news, there will be a pattern service, whereby you may obtain the exact patterns of the pretty things illustrated, so that you may make them up at home from your own choice of materials and fabrics.

Another attractive feature! No matter how elaborate the pattern, nor how simple—the price—will be the same, just twenty cents (20c) each.

Inside the envelope will be found dressmakers' hints, white chart and full instructions will be printed and illustrated on every envelope.

It has Many Qualities.—The man who possesses a bottle of Dr. Thomas' Colic, Cholera and Diarrhoea Remedy will be able to relieve a cough, break a cold, prevent sore throat; it will reduce a swelling from a sprain, relieve the most persistent sore and will speedily heal cuts and contusions. It is a medicine chest in itself.

The cup or happiness usually springs a leak just before it begins to run over.

Don't imagine that because one of the participants in a quarrel is wrong the other is altogether right.

For Sore Throat Use Minard's Liniment.

Home Made Bread is good for the Kiddies

Give the children all the fresh, home-made bread they can eat. Nothing makes them thrive so well.

Prince Buys Real Aristocrat

Shropshire Ram From Ontario Farm going to "E.P." Ranch

Ex-Mayor E. S. Little, of London, who owns and operates the famous Belvoir Stock Farms, at Delaware, Ont., comprising more than 800 acres, has just sold a thoroughbred yearling Shropshire ram to the Prince of Wales, and he will be shipped shortly to the Prince's ranch in Alberta. The ram is a real aristocrat and can trace his lineage back almost as far as the Prince of Wales. Experts of the federal department of agriculture selected the sheep for the Prince.

There is something repulsive in Miller's Worm Powder, and they are as pleasant to take as sugar, so that few children will refuse them. In some cases they cause vomiting, however, their action is an unobscured stomach but this is only a manifestation of their cleansing power. As indicated they are **harmful**. They can be thoroughly depended upon in clear worms from the system.

Egypt Controlling Drug Traffic

A royal decree has been issued in Egypt promulgating a new law for control of the traffic in narcotic drugs. The decree was made necessary by the alarming increase in the drug habit in Egypt in recent years.

Trail Rangers' Big Night

On Friday March 27th the
Old Trail Rangers met to-
gether in a party. The boys
were divided into 3 groups,
with E. Doll, H Wolfe and G
Clarke as captains.

The first big event of the
evening was boxing. Groups 1
and 2 were to box; and the
winners to box group 3. Re-
sults were as follows:

1 W Smith v L Oatway, result-
ed in a tie.
2 G Werner v E Lory; the latter
won.
3 E Lory v E Danabaner tie.
4 W Smith v H Trapp; the for-
mer won.
5 G Willie v C Anderson; the
former won.
6 H Wolfe v E Doll; the latter
won.
7 G Clarke v L Oatway; latter
won.

In the game called Ring
Knock-out, team 2 won the
first and final rounds.

Rooster Fight, team 2 beat
3, but these were defeated by
team 1.

Marble competition, first
round, team 3 beat team 1.
2 games out of 2; team 3 won
3 games from team 2.

The latter part of the even-
ing was spent in wrestling
and other games, in which all
took an active part.

Gwynne Davis, who was to
be captain of team 3, was un-
able to be present, as he was
suffering from an attack of
pneumonia.

After a good supper, con-
sisting of beans, sandwiches,
cake, coffee and candy, the
party broke up, all hands vot-
ing it a huge success.

Home Gardens Competition

In order to encourage the cul-
tivation of gardens and beautifi-
cation of our town, the Stony Plain
Women's Institute is offering
prizes under the following rules
and regulations:

Upon payment of 25c any per-
son may become a member of the
garden club.

Entry must be made with the
Ses garden club committee Mrs.
Robertson not later than July 15.
Gardens to be judged between
Aug 10 to 20 inclusive.

Points in garden and flower
competition: cleanliness, layout
15, quality maximum 10.

Vegetables must include bush
beans, beets, carrots, lettuce, as-
paragus, stalked peas, 10 cabbage
plants, 10 hills potatoes.

Flowers grown must include
sweet peas, pansies, nasturtiums,
anemones, poppies, mignonette.

This list of flowers and vege-
tables does not debar any person
from growing another variety of
flowers or vegetables but the above
standard will be that upon which
garden and flowers will be judged
and points awarded.

Any child or person competing
for prize money must reside and
exhibit within town limits.

Women's Institute will appoint
2 capable judges to inspect gar-
dens entered for competition.

Class A, children 12 to 15 years
inclusive, to plant and care for
vegetables, to be planted in and
occupy a space equal to 15 feet
square.

Class B, vegetables & flowers—
space limited to the property front-
age upon which a person resides
equal to width of 10 feet or less.

Class C, vegetables & flowers
limited to the space of 2 1/2 ft. lots
or less, where a person resides.

Entry in 1 class only permitted.
Prize list to be announced later.
